

Florida's College & Career Planner 2013-2014

One day, your goal will be to find a job in a career that you really want to pursue. The level of education you achieve can determine the type of job you will be eligible for one day (and your potential income).

Today, many careers in business, education, technology, and a host of other fields require you to have a four-year degree (Bachelor's degree). Some careers in medicine or law require you to have an advanced degree beyond a Bachelor's such as a Master's or Doctorate degree. Other professions such as nursing or law enforcement may expect you to have at least a two-year degree (Associate degree) to begin. Particular jobs in the computer, automotive, or construction industries require their employees to have Industry Certification to gain entry into that profession. What will you need?

It's important to think about careers early and map out a plan so you reach the goals and income level you want to achieve. The decisions you make about the high school courses you take can make all of this happen.

This *College and Career Planner* is brought to you by the Florida Virtual Campus so you can make informed decisions about your educational options and find the best option that fits you. It will walk you through the many opportunities available and lay out the key information you need to make your own college and career plan.

Real Life Examples

People with a college education typically earn more money during a shorter span of time. Check out these examples:

Buying Groceries

Terry is a dental assistant (two years of college). Terry generally will earn enough money to buy groceries for a week after working only one day.

Sam is a high school graduate and works as a salesperson in a department store. To buy the same groceries, it generally takes Sam three days' pay.

Buying a TV

Jamie is a college graduate and works as an accountant (four years of college). Based on her salary, Jamie could buy a large screen TV using less than two weeks' pay.

Chris never went to college and works as a waiter. Based on his salary, Chris will have to work two months to buy the same TV.

How much money do you plan to make?

Source: Bureau of Labor and Statistics, Current Population Survey 2012

It's a Florida Thing

The Florida Virtual Campus is an online academic support system for Florida's students – whether attending classes online or in the classroom. As a middle or high school student, you can:

- Explore career and academic options
- Access high school transcript information
- Evaluate courses completed against the requirements for graduation, college and career readiness, and Bright Futures Scholarships
- Search college and university profiles and degree offerings
- See requirements for admission and transferring
- Find college- and university-level distance learning courses
- Search library offerings
- Apply online for admission and financial aid
- And so much more!

The Florida Virtual Campus is provided by the Florida College System and State University System so you can make informed decisions about your educational options and find the best option that fits you. Go to www.flvc.org to learn more.

Career Planning

Exploring careers has never been easier! All of Florida's middle, high school, college, and university students, as well as all Florida residents, can access Florida CHOICES for free through the Florida Virtual Campus or www.flchoices.org. You can take assessments to learn about yourself, explore careers and school options, and use the financial aid planning tools to research sources of aid, including scholarships. You can also search for jobs, develop a resume, and practice job interview skills. Your end result is a plan for your life that is compiled in your individual portfolio.

Find Your Career Cluster

Careers that have something in common are grouped together. Go to www.flchoices.org to find out more about each of the 17 career clusters listed below and select the one that fits you best. Knowing your career cluster can help narrow down careers and academic programs you may want to pursue.

- Agriculture, Food and Natural Resources
- Architecture and Construction
- Arts, Audio-Video Technology and Communication
- Business Management and Administration
- Education and Training
- Energy
- Finance
- Government and Public Administration
- Health Science
- Hospitality and Tourism
- Human Services
- Information Technology
- Law, Public Safety, Corrections and Security
- Manufacturing
- Marketing
- Science, Technology, Engineering and Mathematics
- Transportation, Distribution and Logistics

Your Education. Your State. Your Options.

You don't have to go too far in Florida to find an option that fits you!

State Universities

Florida offers you 12 public universities, many with branch campuses and centers throughout the state. State universities offer Bachelor's degrees in addition to Master's, Doctorate, and Professional degrees through on-campus and distance learning (online) courses. Because space is limited at each university, students must compete to be admitted. Keep in mind that there are minimum requirements just to apply and a university can have additional requirements as well.

State University System (SUS) Fast Facts

- In 2012, over 327,000 students were enrolled in Florida's state universities.
- Current tuition and fees for Florida residents averaged \$202 a credit hour or \$6,069 for 30 hours (2 semesters).
- The SUS offers 11 different honors colleges and programs.
- There are over 600 online degree programs available.
- To meet minimum requirements for SUS admission, universities will evaluate a student's College Prep curriculum, Grade Point Average (GPA), and test scores on a college entrance exam (SAT, ACT).

State University System Admission Requirements

To qualify to enter one of Florida's public universities, a student must meet the minimum requirements. Each university may have different requirements. Check the admissions pages for universities that you may be interested in attending:

- Florida A&M University
<http://www.famu.edu>
- Florida Atlantic University
<http://www.fau.edu>
- Florida Gulf Coast University
<http://www.fgcu.edu>
- Florida International University

- University of South Florida
<http://www.usf.edu>
- University of West Florida
<http://www.uwf.edu>

The College Prep Curriculum

Students must complete at least 18 credits of high school work in the five academic core areas listed below in addition to two academic electives to meet minimum eligibility. Your school counselor can assist you in selecting the right types of courses that meet these requirements.

Core Area	Credits Required
English/Language Arts	4 credits (3 with substantial writing)
Mathematics	4 credits (Algebra 1 and higher)
Natural Science	3 credits (2 with substantial lab components)
Social Science	3 credits
Foreign Language	2 credits (in same language)
Approved Academic Electives	2 credits (or 1 academic elective and 1 ROTC credit)
TOTAL:	18 Credits

What do Freshmen in Florida Universities Look Like?

State University	College Prep GPA Mid-Range	SAT Combined Average (3 sections)	ACT Mid-Range
Florida A&M University	2.9-3.5	1438	19-23
Florida Atlantic University	3.3-3.9	1631	22-25
Florida Gulf Coast University	3.0-3.7	1535	20-24
Florida International University	3.4-4.1	1704	24-27
Florida State University	3.7-4.2	1842	26-29
New College of Florida	3.7-4.3	1944	27-31
University of Central Florida	3.6-4.2	1831	25-29
University of Florida	4.1-4.4	1927	27-31
University of North Florida	3.5-4.3	1784	24-28
University of South Florida	3.6-4.2	1759	25-29
University of West Florida	3.1-3.8	1537	21-25

Florida Colleges

The Florida College System provides you with 28 public state colleges, colleges, and community colleges at 178 sites across the Sunshine State. Florida College System institutions offer a wide variety of degrees and certificates, as well as training to obtain Industry Certifications. Many state colleges even offer four-year Bachelor's degrees in high demand, high need areas! Earning a two-year Associate degree enables a student to transfer to a university or enter a career field that requires specific skills.

Florida College System Fast Facts

- In 2011-12, over 900,000 students were enrolled either full-time or part-time in Florida state colleges.
- Students who earn an Associate in Arts degree from the Florida College System are guaranteed admission to the upper division of a state university or a Florida College System institution (not necessarily their first choice).
- The average cost of tuition is much lower in the Florida College System compared to private institutions and public universities.

Florida College System Admission Requirements

Florida colleges offer an "open-door" policy which guarantees admission to obtain an Associate degree provided you have completed any of the following:

- Earned a standard high school diploma
- Earned a high school equivalency diploma
- Previously demonstrated competency in college credit coursework

Upon admission, students are required to take the Postsecondary Education Readiness Test (P.E.R.T.), CPT-Accuplacer, or present scores on the ACT or SAT to determine appropriate course placement.

Baccalaureate degree admission requirements depend on the program of study. Students seeking a Bachelor's degree at a college are encouraged to contact the college of interest.

Florida Colleges

- Broward College – Ft. Lauderdale
- Chipola College – Marianna
- College of Central Florida – Ocala
- Daytona State College – Daytona Beach
- Eastern Florida State College – Cocoa
- Edison State College – Ft. Myers
- Florida Gateway College – Lake City
- Florida Keys Community College – Key West
- Florida State College at Jacksonville – Jacksonville
- Gulf Coast State College – Panama City
- Hillsborough Community College – Tampa
- Indian River State College – Ft. Pierce
- Lake-Sumter State College – Leesburg
- Miami Dade College – Miami
- North Florida Community College – Madison
- Northwest Florida State College – Niceville
- Palm Beach State College – Lake Worth
- Pasco-Hernando State College – New Port Richey
- Pensacola State College – Pensacola
- Polk State College – Winter Haven
- Santa Fe College – Gainesville
- Seminole State College of Florida – Sanford

- South Florida State College – Avon Park
- St. Johns River State College – Palatka
- St. Petersburg College – St. Petersburg
- State College of Florida, Manatee-Sarasota – Bradenton
- Tallahassee Community College – Tallahassee
- Valencia College – Orlando

Did You Know?

The Talented 20 Program (<http://www.fldoe.org/Talented20/>) guarantees you admission into a state university (not necessarily the university of your choice) if you:

- Graduate with a standard diploma from a Florida public high school
- Rank in the top 20% of your graduating class
- Complete all 18 college prep credits required for state university admission
- Take the ACT or SAT (no minimum score)

Career and Technical Centers

Florida also offers students 47 accredited career and technical centers throughout the state which provide the education and certification necessary to work in a particular career or technical field. Programs are flexible for students, and provide industry specific education and training for a wide variety of occupations.

Career and Technical Center Fast Facts

- Over 210,000 students enrolled in a Florida public career and technical center during the 2012-2013 year.
- More than 6,200 students participated in an Apprenticeship program at their chosen career and technical center during the 2012-2013 year.
- 29 school districts have one or more accredited career and technical center.
- The Bright Futures Gold Seal Vocational Scholars Award is available to assist with the payment of educational expenses.

Independent Colleges and Universities

In addition to public colleges and universities, Florida offers 31 private, not-for-profit educational institutions all based in Florida and accredited by the Southern Association of Colleges and Schools (SACS). These schools serve 155,000 students across Florida at 135 different locations. Florida's independent colleges and universities award 25% of Florida's Bachelor's degrees and 33% of all degrees in Florida. They vary in enrollment size from 200 to 26,000 students. Florida's independent colleges and universities guarantee access for all state college graduates as well. Nearly 80% of full- and part-time students receive some form of financial aid. Admission requirements vary by school, so students must stay informed about what each program requires.

U.S. Military Entrance

The U.S. Military branches offer another option for students after high school graduation. The Armed Services Vocational Aptitude Battery (ASVAB) is the required entrance test to enlist in the U.S. Military. For more information on the ASVAB, please visit <http://www.military.com/ASVAB>.

Please visit the websites below for more information related to entrance requirements:

- United States Air Force (<http://www.airforce.com/>)
- United States Army (<http://www.goarmy.com/>)
- United States Coast Guard (<http://www.uscg.mil/>)
- United States Marine Corps (<http://www.marines.com/>)
- United States Navy (<http://www.navy.com/>)

Improve Your Chances of Being Admitted!

There are many ways to challenge yourself in high school, and in some cases earn high school *and* college credits at the same time. Get to know the “lingo” so an opportunity doesn’t pass you by. Each of these options can help improve your chances of being admitted to a Florida college, university, or career and technical center.

Accelerated course options vary by school. Set up a time to speak to your school counselor about these possibilities at the high school you will or already attend:

- **Honors Courses:** Rigorous, accelerated learning in particular subject areas. Can be taken on a course by course basis.
- **Advanced Placement (AP) Courses:** A nationwide program sponsored by the College Board consisting of more than 30 college-level courses and exams offered at participating high schools. Credit is earned by passing a highly rigorous exam. (<https://apstudent.collegeboard.org>)
- **International Baccalaureate (IB) Diploma Program:** A two-year, internationally recognized program of study which allows you to earn college credit. Credit is earned by passing a highly rigorous exam. (<http://www.ibo.org/general/who.cfm>)
- **Dual Enrollment and Early Admission:** Take college courses at your local college, university, or technical center while you are still in high school. Earn college credits toward a certificate, Associate, or Bachelor’s degree. (<http://www.fldoe.org/articulation/pdf/dualenrollfaq.pdf>)
- **Advanced International Certificate of Education (AICE):** An internationally recognized program of study that can earn students up to one year of college credit. Credit is earned by passing a highly rigorous exam. (<http://www.cie.org.uk/qualifications/academic/uppersec/aice>)
- **The International General Certificate of Secondary Education (Pre-AICE) Program (IGCSE):** Designed for students in grades nine and ten to prepare them for the AICE Program. College credit is typically not awarded for this program level. (<http://www.cie.org.uk> < Cambridge Secondary 2 (14–16 olds))
- **College Level Examination Program (CLEP):** College credit is earned by passing a nationally standardized exam, although no high school credit is awarded. There is no associated course or curriculum involved with the CLEP exam. (<http://clep.collegeboard.org/>)
- **Industry Certifications:** Locally awarded; defined as a process by which individuals are assessed by an independent, third-party certifying entity using predetermined standards for knowledge, skills, and competencies, resulting in the award of a time-limited credential that is nationally recognized and applicable to an occupation that is included in the workforce system’s targeted occupation list or determined to be an occupation that is critical, emerging, or addresses a local need. These credentials are industry-recognized and portable within Florida and, in most cases, to other states. Some Industry Certifications can lead to college credit towards Associate degree at a college. Check out the list of Industry Certification Programs now available from many Florida public high schools. (http://www.fldoe.org/workforce/dwdframe/artic_indcert2aas.asp)
- **Advancement Via Individual Determination (AVID):** A concentration of electives which promote college readiness; can begin as early as elementary school and provide academic support through college. (http://www.avid.org/abo_whatisavid.html)

- **Career Academies:** These small, concentrated college-prep programs allow a high school student to focus on a particular career cluster and study related coursework in that area. (http://www.fldoe.org/workforce/careeracademies/ca_home.asp)
- **Florida Virtual School (FLVS):** Florida also offers students accelerated coursework through online learning. Courses include honors and AP levels. (<http://www.flvs.net>)

My Way to Pay

You don't need to win the lottery to go to college in Florida! Every student can get some type of financial aid regardless of age or income as long as you meet some basic eligibility requirements. Use this money to help pay for your tuition, housing, books, and even living expenses while you attend a college, university, or career and technical center. Don't be shy! Last year, students in the United States received over \$200 billion in financial aid to pay for these programs, so take advantage of the opportunities that can make your education goals a reality!

There are several different types of financial aid and you can earn more than one type. You just need to become familiar with what is available, so you don't miss out!

Types of Financial Aid

Scholarships	Grants	Work Study	Loans
<ul style="list-style-type: none"> Free money! Requirements for each scholarship must be met (academic, background, need, athletic, and/or program of study). 	<ul style="list-style-type: none"> Free money! Does not need to be repaid. Provided by state and national sources. Amounts vary based on need, school cost, and/or enrollment status. 	<ul style="list-style-type: none"> Earned money! Does not need to be repaid. Provided by state and national sources. Amounts vary based on need. School pays student to work part-time job on campus or within a community based program. 	<ul style="list-style-type: none"> Borrowed money! Must be repaid with interest. Students or parents can borrow money to help pay for a student's college, university, or career and technical education.
Example: Bright Futures Scholarship Program	Example: First Generation Matching Grant Program	Example: Federal Work Study Program	Example: Federal Perkins Loans

Finding Your Financial Aid

You have to rely on accurate information if you want to get the most money. Start by reviewing state and federal financial aid web sites.

- U.S. Department of Education Financial Aid (<http://studentaid.ed.gov>)
- Florida Department of Education Financial Aid (<http://www.floridastudentfinancialaid.org/>)

Applying for Financial Aid

After a student has applied for admission to a future college, university, or career and technical center, the next step is to fill out financial aid applications. This is usually done after January 1 of your senior year. There are two applications you'll need to complete and both are available online:

- Free Application for Federal Student Aid (FAFSA) (<http://www.fafsa.ed.gov/>)
- Florida Financial Aid Application (FFAA) (https://www.floridastudentfinancialaidsg.org/ua/sawstua_uaform.asp)

The Florida Bright Futures Scholarship Program

Florida has over 14 different scholarship and grant programs to help you pay for college. One of the most recognized programs is the Florida Bright Futures Scholarship Program (<http://www.floridastudentfinancialaid.org/ssfad/bf/>) that is made possible with proceeds from the Florida Lottery. This money can be used at a Florida university, college, or even a career and technical center.

As a Florida resident, you could earn Bright Futures scholarship money if you meet certain general and specific requirements. *These requirements can change after each Legislative session*, so it's important to stay aware of all the necessary details.

Bright Futures Scholarship Award Requirements

There are three Bright Futures scholarships and each award has its own academic eligibility requirements, award amounts, and funding length. Here is a quick overview of the academic requirements for the four-year diploma Bright Futures Scholarships for students graduating in 2014:

Criteria	Florida Academic Scholars (FAS)	Florida Medallion Scholars (FMS)	Gold Seal Vocational Scholar (GSV)
GPA (weighted)	3.5	3.0	3.0 weighted in core credits and a 3.5 unweighted in three CTE credits in one vocational program (taken over two academic years)
Required Credits	<ul style="list-style-type: none"> • 4 English (3 with substantial writing) • 4 Mathematics (Algebra 1 level and above) • 3 Natural Science (2 with substantial lab) • 3 Social Science • 2 World Language (sequential, in the same language) 	<ul style="list-style-type: none"> • 4 English (3 with substantial writing) • 4 Mathematics (Algebra 1 level and above) • 3 Natural Science (2 with substantial lab) • 3 Social Science • 2 World Language (sequential, in the same language) 	<ul style="list-style-type: none"> • 4 English • 4 Mathematics (including Algebra 1) • 3 Natural Science (2 with lab component) • 3 Social Science (U.S. Hist., World Hist., U.S. Govt. and Economics) • 1 Fine Art; <u>or</u> identified Practical Art; <u>or</u> .5 credit in each • 1 Physical Education (to include integration of health) • 3 CTE credits in same area
Test Scores	1290 SAT <u>or</u> 29 ACT	1170 SAT <u>or</u> 26 ACT	SAT Reading: 440 SAT Math: 440 <u>or</u> ACT English: 17 ACT Reading: 18 ACT Math: 19 <u>or</u> P.E.R.T. Writing: 99 P.E.R.T. Reading: 104 P.E.R.T. Math: 113
Community Service Hours	100 hours	75 hours	30 hours

High School Graduation

All of the resources outlined in this document have led up to one thing: creating your own career and education plan for high school. This plan should include your intended high school diploma type, graduation plan, career cluster, graduation goal, and the courses you will take in order to earn your diploma.

Diploma Options

Florida provides several different diploma options to all high school students. Each involves a set of minimum requirements established by the State Legislature. And, just like a university, individual districts or schools can have *additional requirements*, so it is important to talk to your school counselor and stay informed about what you will need to achieve your goals.

- A 4-year, 24-credit standard diploma
- A 3-year, 18-credit college prep diploma
- A 3-year, 18-credit career prep diploma
- AICE diploma
- IB diploma

Graduation Plan

The 4-year, 24-credit standard diploma is by far the most popular option. When a standard diploma is selected, you can choose to include course requirements for College Prep, Career Prep, or both. For example, if you plan to attend a state university to pursue a 4-year Bachelor's degree, selecting the College Prep or College & Career Prep plan will include the course requirements for state university admission, two of the higher Bright Futures Scholarship awards, and high school graduation. The chart below shows the various graduation plans available for a standard diploma.

Course Requirements Met by Graduation Plan	College Prep	Career Prep	College & Career Prep
State University Admission	X		X
Florida College Admission	X	X	X
Technical Center Admission	X	X	X
Bright Futures Scholarship - Florida Academic Scholars Award	X		X
Bright Futures Scholarship - Florida Medallion Scholars Award	X		X
Bright Futures Scholarship - Gold Seal Vocational Scholars Award		X	X
High School Graduation	X	X	X

Note: Graduation plans are based on a 4-year, 24-credit standard diploma only; additional requirements (beyond courses) may apply such as GPA, test scores, and community service. Speak with your school counselor and use the Bright Futures Scholarship Eligibility Evaluation and College & Career Readiness Evaluation on www.flvc.org to monitor your progress.

Make a Career & Education Plan

The following pages provide specific graduation requirements for a 4-year, 24-credit standard diploma based on a student's ninth grade year. Using the resources in this document and assistance from your school counselor or parent/guardian, you can create an academic plan for high school which meets your selected career and education goals.

My Career & Education Plan

3 credits in core academic areas 2 credits in single World Language 3 credits in academic electives	3 credits in single vocational/career education program 5 credits in electives	3 credits in core academic areas 2 credits in single World Language 3 credits in single vocational/career education program

State Assessment Requirements: Students must earn passing scores on the Grade 10 FCAT 2.0 Reading or concordant scores on a standardized test (ACT or SAT), and meet additional statewide standardized end-of-course (EOC) assessment requirements. See your school counselor for more information.

GPA Requirement: Students must receive a minimum of a 2.0 on a 4.0 scale to be eligible for graduation; State scholarships and state universities have higher GPA standards.

Online Learning Requirement: At least one course within the 24 credits must be completed through online learning.

State University System (SUS) Admission Requirements: Students wanting to gain admission to competitive universities such as those in the SUS must complete the College Prep or College & Career Prep credit requirements (wherein all courses earned must satisfy admission requirements) and achieve GPA and entrance exam minimums as set forth by the university. To determine which courses meet SUS admission requirements, use the Comprehensive Course Table at https://www.osfaffelp.org/bfiehs/fnbpcm02_CCTMain.aspx.
